## EDUCATION

### University of Guelph

Sept. 2020 – April 2025

*Bachelor of Computing - Co-op*

*Guelph, ON*

- Key Courses: Data Structures, Algorithms, OOP, Software Systems Development and Integration, UI/UX Design

## EXPERIENCE

### Software Developer - Intern

Sept 2024 – Dec 2024

*First National Financial LP*

*Toronto, ON*

- Aided in enhancing the front end of a user interface using Visual Studio, focusing on creating intuitive and responsive design elements
- Gained hands-on experience in front-end development and the Blazor framework, strengthening skills in component-based design and modern UI frameworks
- Used Azure DevOps and Git for version control, ensuring seamless collaboration and efficient deployment of changes

### Manual Tester - Intern

January 2024 – August 2024

*First National Financial LP*

*Toronto, ON*

- Developed detailed test plans and test cases based on requirements and use cases
- Executed manual tests to ensure that the software satisfies the functional and non-functional requirements
- Conducted pre-release testing in a staging environment such as regression testing to verify the stability and readiness of the code for production deployment.
- Supported the QA team during production releases by ensuring that newly deployed changes functioned correctly and met the given requirements

### Defect Analyst/Automation

May 2023 – August 2023

*Rogers Communications*

*Brampton, ON*

- Implemented automated testing frameworks with CI/CD pipelines
- Worked with Agile and Scrum methodologies to accomplish project milestones and meet demanding timelines
- Maintained detailed recordkeeping and updated project documentation to compile reports
- Developed dashboards using Confluence to track productivity and keep information organized
- Worked with developers to identify bugs in code during the automation process

### Coding Instructor

May 2022 – April 2023

*Code Ninjas*

*Brampton, ON & Guelph, ON*

- Educated children ages 7-12 about coding concepts such as loops, if statements, functions and arrays.
- Utilized Scratch, Javascript and C to aid students in applying concepts to create games in Unity.

## TECHNICAL SKILLS

**Languages:** C, C#, Java, SQL, JavaScript, HTML/CSS, R

**Frameworks:** React, Node.js, WordPress, Bootstrap, Blazor

**Developer Tools:** Git, Docker, VS Code, Visual Studio, Eclipse, Figma

**Task Management:** Zendesk, JIRA/Confluence, Azure DevOps

## PROJECTS

### Work Term Report | *HTML, CSS, JavaScript, React, Netlify*

- Designed and developed a responsive personal portfolio website to showcase projects, skills, and professional experiences using React and modern JavaScript frameworks.
- Implemented interactive UI components with React, enhancing navigation efficiency.
- Utilized Git for version control and code management.
